

CobiCabling 48-port 1U Unloaded Keystone Patch Panel

PRODUCT DESCRIPTION

CobiCabling panels are supplied unloaded - all panels come with removable rear cable management strip, cable ties and cage nuts. The labelling strip is covered by a plexiglass to provide a good visibility and protection. The installation and termination time can be greatly reduced when pairing them with our Keystone jacks.

Features:

High density

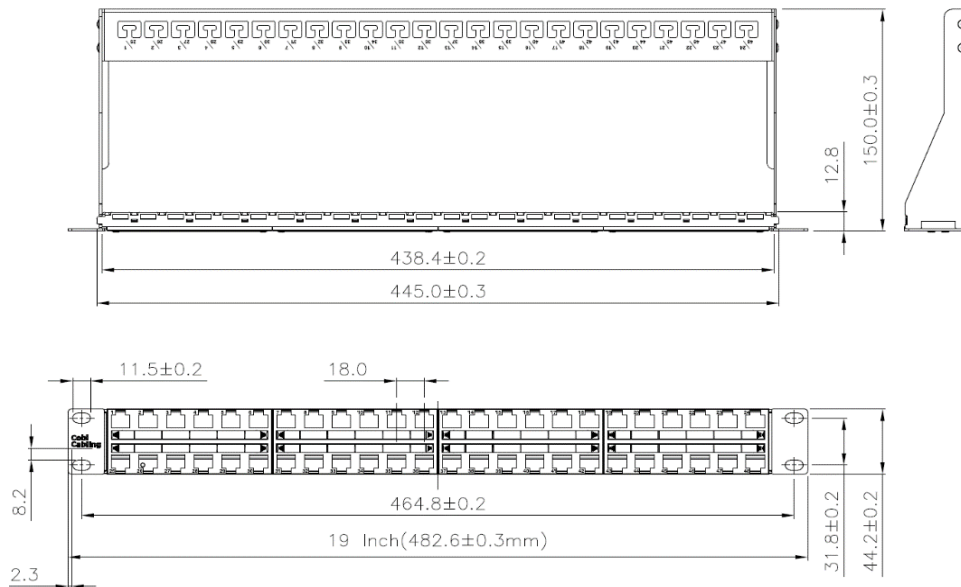

Backwards compatible

25-years manufacturers warranty

Mini cable ties and cage nuts included

Rear cable management

Labelling strips
